Personal Projects

User Management System | *React, JavaScript, Primitive UI*

September 2023

- Created a CRUD application using React to manage users. Used React functional components and React Hooks.
- This application primarily employs React functional components and leverages React Hooks for state management.
- In addition to React, I've used HTML and CSS to create the user interface, and I've implemented Primitive UI for styling and design.

Shopping-clone. | *React.js, MaterialUI*

October 2021

- Develop an e-commerce Single page application.
- Used material UI for Style .

Responsive Music Player | *Html, CSS*

October 2021

- I have designed and developed a responsive Music Player web application, tailored for desktop use, to deliver an exceptional music listening experience.

Education

BBD NITM

Aug. 2016 – Sep 2020

Bachelor of Technology in Information Technology 7.2

Lucknow
